

Hard coughs are bad enough, to be sure. But it's often the little, hacking, tickling, persistent cough that means the most, especially when there is a history of weak lungs in the family. What should be done? Ask your doctor. He knows. Ask him about the formula on the label of every bottle of Ayer's Cherry Pectoral. Ask him if this medicine has his full approval for throat and lung troubles. Then do as he says.

NO DECISION

(Continued from page One.) When this discussion came up, Attorney Button, representing the government, offered to let the other side in the controversy file its motion to dismiss the action and it was agreed to argue the matter on Wednesday.

Afterwards he said that the action of the government was not brought under the sections or chapter which Judge Gooper quoted, which was chapter on Duisances, but under the chapter de-voted to the duties of the board of bealth which immediately precedes the one taken up by the court

Two Sections Plain,

He stated that two sections of this previous chapter were in point, and were the ones under which the govern-ment was working, these never having been amended in any way.

Section 991, regulations, which Attorney Sutton quoted, says: "The board of health may make such regulations respecting nuisances, sources of filth, and causes of sickness, within the respective districts of the Territory. and on board of any vessels, as it shall judge necessary for the public health

Mr. Spalding was especially insistent with both Mr. Murray and Mr. Low, that the money should be found for the extension and betterment of the police force, also that the fire department should be given all the assistance possible. Mr. Spalding paid a high compliment to Fire Chief Thurston, stating that he had done wonders and all field a man could do with the facilities at his command. He also spoke in the same way about the work of Sheriff Jarrett and acceptuated the necessity of adding to his force with the growth of the city.

Low Will Cooperate,

Later in the day Supervisor Low had conference with President Spatishing and much the same ground was gone over. The question also came up as to the board for the best interests of the city, and Eben Low also declared that he was in sympathy with the ideas of President Spalding and that he would cooperate with the other members of the board to do what was determined upon as the best line of action.

Mr. Thompson's Plan.

It appears that some month ago Attorney Frank Thompson, who is associated with John T. McCrosson, Cecil Brown and others in large landed interests on Launi conceived the idea (Continued from page One.)

He also stated that he had seen the men quit work at times from between half-past two to half-past three o'clock, put on their coats and go home.

It was agreed by Mr. Murray that there must be a change in such methods of work, and he agreed also with Mr. Spalding that where it was possible road work should be let aut by contract, except on small stretches of new road, or for maintenance.

The result of this talk was that Mr. that the entire Territory, but the island

The result of this talk was that Mr. suited Governor Frear. Mr. McCrossor self as thoroughly in accord with the torial executive, explaining that it such suggestions made.

Action by the board of supervisors, become a part of the Organic Act bia company, the Lanai Company, on the budget, may be postponed for a day or two until a final settlement of at least one-tenth of its holdings on the budget plane can be made. the budget plans can be made.

This budget will have to pass the proposed amendment with the full and board at three readings before the new completed proposition of the company year, and there is not much time to Thompson made a draft of it as it appears above and the Governor gave it his endorsement.

Governor Frens, seen last night at his apartments in the Pleasanton, freehis apartments in the Pleasanton, free-ly discussed the proposed amendment, declaring that its passage "could posti-bly harm no one while there was every chance to believe the Territory would be a large gainer."

The Governor opened a copy of the Organic Act and called attention to See 55 in which occurs a provise re-

The intention of the proviso was undoubtedly landable, but it has fail-ed of its purpose. It may not be possible in IAwaii to acquire directly lands in excess of one thousand acres, but for them. There have been twenty-one there are apparently many round about deaths from various causes on the ways of doing it. The proviso is amisland since the arrival of the immiways of doing it. The proviso is ambiguous and really of noneffect, or, at it is not clear to legal minds,

"The proposed amendment simply makes it possible for corporations or others to acquire such land as they desire in a straightforward, legitimate way, without evasion or attempt at evasion. I gave it my approval when the gentlemen behind it incorporated fully therein their first verbal state, ments to me.

Territorial Gain.

"From the public point of view, I feel sure the passing of the amend ment will be a distinct gain. In fact I do not see where there could be any question about it. It virtually means that thousands of acres of tillable land on Lanai and possibly on some of the other island will become to all intents and purposes public lands for setsense these might be called a gift to the people."

Seven New Cases of Smallpox Doubles the Quarantine

of Immigrants.

Seven new cases of smallpox found yesterday among the eighteen hundred Fortuguese and Spanish immigrants on quarantine island have set the officials in charge of them, facing doubled difficulties and will nearly double tho expenses the federal and territorial government will have been put to.

Two of the cases broke out in the isolation hospital and consequently do not change the situation, but three of the others broke out in the measles camp, another in the Portuguese camp and the other in what is known as the outside Spanish camp. The significant feature of the new developments is that the disease has appeared among immigrants who have been isolated from supposedly infected quarters for fifteen days, or one day over the incubation period which is generally allowed by modern medical science.

Local officials are inclined to lay em phasis on this fact, particularly as the joint request of chief quarantine officer, Dr. Ramus and President Pratt of the board of health for a twenty-one-day quarantine has been peremptorily turned down by the Washington powers. The request was based on the supposi-tion that the disease, owing to modern vaccination precautions would take longer to develop than is ordinarily the case, as it has proved.

Conferences are today awaited to clear the situation up and at present it is not known exactly how the new cases will effect the situation with regard to farther quarantine.

The seventy-five or eighty people in the messles camp will have to remain in quarantine for fourteen days, dating from yesterday, when the three pa-tients were found among the children. All of these cases had been hidden by the mothers from the authorities thus complicating the situation. They occarred in three separate tents. One case is typical.

The victim in the Portuguese ramp is a four-year old girl who had been sick for two days and secreted from the nurses and physicians. There is no question but that the inmates of this camp will ulso have to remain in quarantine for the additional fourteen tays. It is believed that girl will die.

The case which broke out in the out-side Spanish camp occurred in a boy who was fortunately, discovered in the early stage of the disease and isolated at once. It is generally believed that the disease is not contagious until the pecks break out, and as he was removed from the camp before this took place, a consultation will be held today to determine whether the other immigrants in that camp can be released at the

regular time or not. The isolation hospital is now full over proper capacity and a separate camp has been established for the measles cases. Any number of other cases breaking out in the future would be hard to handle, although means would have to be arranged, of course, to care grants which makes forty-eight since

they left Gibraltar.

Supervisors Caucus on Budget, but Can Not Make Both Ends Meet.

Practically unanimous on the proposed city budget for 1912, the supervisors retired last night after ten The main corral in which are housed 850 Spaniards, has so far shown no signs of Earther infection and if this caucus, the three-quarters of a million is true tomorrow, when their quaran-tine period expires, they will be re-moved to the immigration station to undergo the immigration examinations, and if found qualified, admitted to the terday morning. After going over all country. It must not be forgotten that the items, the only ones which the sacountry. It must not be longer of the pervisors held in adequace are theoretically, no single person of the pervisors held in adequace are theoretically, no single person of the pervisors held in adequace are theoretically, no single person of the pervisors held in adequace are theoretically, no single person of the pervisors held in adequace are theoretically, no single person of the pervisors held in adequace are the pervisors hel Pearl Harbor.

It will be a squeeze to get those items into the budget, as according so the estimate of income this will cut down the funds available for permanent improvement. With these out there will be considerable mency for town improvements. The Hotel street widen ing is put down at \$30,000 and the Yearl Harber road at \$20,000, making
